CONTENTS

Volume 39

Number 1, February 1993

H. Prillinger, F. Oberwinkler, C. Umile, K. Tlachac, R. Bauer, C. Dörfler, and E. Taufratzhofer: Analysis of cell wall carbohydrates (neutral sugars) from ascomycetous and basidiomycetous yeasts with and without derivatization 1

T. Hino, M. Sugiyama, and K. Okumura: Maintenance of protozoa and methanogens, and fiber digestion in rumen-simulating continuous culture 35

S. P. Pathak, J. W. Bhattacherjee, and P. K. Ray: Seasonal variation in survival and antibiotic resistance among various bacterial populations in a tropical river 47

S. Singh: Role of glutamine synthetase, glutamine and NH_4^+ in the regulation of glutamine uptake in the cyanobacterium *Anabaena cycadeae* 57

H. Morisaki, Y. Kasahara, and T. Hattori: The cell surface charge of fast- and slow-growing bacteria isolated from grassland soil 65

T. Hara, S. Ogata, and S. Ueda: Plasmid distribution in γ-polyglutamate-producing *Bacillus* strains isolated from "dan-douchi," a "natto"-like non-salty fermented soybean food in China 75

T. Kaneko, S. Oguri, S. Kato, and Y. Nagata: Developmental appearance of lectin during fruit body formation in *Pleurotus cornucopiae* 83

P. Vyas and M. V. Deshpande: Purification and characterization of an endochitinase from *Myrothecium verrucaria* 91

Short Communication

F. Yanagida, T. Shinohara, and S. Goto: Thallism, ploidy, and killer property of wine yeasts .. 101

Number 2, April 1993

T. Nakase, A. Takematsu, and Y. Yamada: Molecular approaches to the taxonomy of ballistosporous yeasts based on the analysis of the partial nucleotide sequences of 18S ribosomal ribonucleic acids 107

P. Kämpfer, H. Seiler, and W. Dott: Numerical classification of coryneform bacteria and related taxa 135

P. Kämpfer and H. Seiler: Probabilistic identification of coryneform bacteria 215

H. Yasukawa, T. Hase, and Y. Masamune: The mutational analysis of the plus origin and the identification of the minus origin of the plasmid pKYM which replicates via a rolling-circle mechanism 237

Short Communication

K. Ohmori and M. Ohmori: Effect of cAMP on cellular ATP concentration in the cyanobacterium *Spirulina platensis* 247

U. C. Banerjee: Studies on rifamycin oxidase immobilized on agar gel 251

S.-O. Suh and J. Sugiyama: Septal pore ultrastructure of *Leucosporidium lari-marini*, a basidiomycetous yeast, and its taxonomic implications 257

P. Vyas and M. V. Deshpande: Purification and characterization of an endochitinase from *Myrothecium verrucaria* 91

Short Communication

F. Yanagida, T. Shinohara, and S. Goto: Thallism, ploidy, and killer property of wine yeasts .. 101

Number 2, April 1993

T. Nakase, A. Takematsu, and Y. Yamada: Molecular approaches to the taxonomy of ballistosporous yeasts based on the analysis of the partial nucleotide sequences of 18S ribosomal ribonucleic acids 107

P. Kämpfer, H. Seiler, and W. Dott: Numerical classification of coryneform bacteria and related taxa 135

P. Kämpfer and H. Seiler: Probabilistic identification of coryneform bacteria 215

H. Yasukawa, T. Hase, and Y. Masamune: The mutational analysis of the plus origin and the identification of the minus origin of the plasmid pKYM which replicates via a rolling-circle mechanism 237

Short Communication

K. Ohmori and M. Ohmori: Effect of cAMP on cellular ATP concentration in the cyanobacterium *Spirulina platensis* 247

U. C. Banerjee: Studies on rifamycin oxidase immobilized on agar gel 251

S.-O. Suh and J. Sugiyama: Septal pore ultrastructure of *Leucosporidium lari-marini*, a basidiomycetous yeast, and its taxonomic implications 257

Number 3, June 1993

N. Goto-Yamamoto, S. Sato, H. Miki, Y. K. Park, and M. Tadenuma: Taxonomic studies on yeast-lysing bacteria, and a new species *Rarobacter incanus* 261
M. Mitsumori and H. Minato: Presence of several cellulose-binding proteins in cell lysate of *Fibrobacter succinogenes* S85 273
T. Ogata, Y. Okumura, M. Tadenuma, and G. Tamura: Improving transformation method for industrial yeasts: construction of *ADH1-APT2* gene and using electroporation 285
S.-O. Suh, T. Kuroiwa, and J. Sugiyama: Quantitative differences of nuclear DNA contents and their taxonomic implications in *Leucosporidium scottii*, *Rhodosporidium toruloides*, and related basidiomycetous yeasts 295
J. L. Adrio, M. Veiga, J. Casqueiro, M. López, and C. Fernández: Isolation of *Phaffia rhodozyma* auxotrophic mutants by enrichment methods 303

Short Communication

H. Oyaizu, S. Matsumoto, H. Inoue, and H. Takeda: Polyphyletic origins of chlorophyte chloroplasts 313
H. Amano, Y. Saito, and K. Shishido: The nucleotide sequence of the chromosomal tetracycline-resistance gene of *Bacillus subtilis* R differs from that of *B. subtilis* 168 by five base pairs .. 321

Number 4, August 1993

S. P. Singh and P. J. Rogers: Isolation and characterization of mannitol-1-phosphate dehydrogenase from *Brochothrix thermosphacta* 327
H. Oyaizu, S. Matsumoto, K. Minamisawa, and T. Gamou: Distribution of rhizobia in leguminous plants surveyed by phylogenetic identification 339
S. Singh: Role of glutamine synthetase activity in the arginine and proline regulation of heterocyst and nitrogenase formation in the cyanobacterium *Anabaena cycadeae* 355
M. Mitsumori and H. Minato: Purification of cellulose-binding proteins 1 and 2 from cell lysate of *Fibrobacter succinogenes* S85 361
Y. Takada, N. Hayashinaka, E. Hagihara-Nukui, and N. Fukunaga: Chemotaxis in a psychrophilic marine bacterium, *Vibrio* sp. strain ABE-1 371
Y. Kasahara, H. Morisaki, and T. Hattori: Hydrophobicity of the cells of fast- and slow-growing bacteria isolated from a grassland soil 381
J. P. Barford, P. K. Mwesigye, P. J. Phillips, D. Jayasuriya, and I. Blom: Further evidence of direct uptake of sucrose by *Saccharomyces cerevisiae* in batch culture 389
J. P. Tamang and P. K. Sarkar: Sinki: A traditional lactic acid fermented radish tap root product 395
F. B. Elegado and Y. Fujio: Polygalacturonase production by *Rhizopus* spp. 409
S. Yamanaka, S. Kanbe, and R. Fudo: Lysis of basidiomycetous yeast, *Rhodotorula glutinis* caused by myxobacteria 419
K. Uchida and C. Kanbe: Occurrence of bacteriophages lytic for *Pediococcus halophilus*, a halophilic lactic-acid bacterium, in soy sauce fermentation 429

Short Communication

M. Jibiki, Y. Kuno, H. Shinoyama, and T. Fujii: Isolation and properties of large cell strains from a methanol-utilizing yeast, *Candida* sp. N-16 by colchicine treatment 439

Number 5, October 1993

K. Ogawa, N. Fujii, K. Furukawa, R. W. Ashadi, P. Thayananuphat, and K. Tanaka: Transfer of cellulolytic character of *Aspergillus niger* into *Aspergillus kawachii* by their protoplast fusion 443

R. Irie, Y. Fujita, and T. Okamoto: Cloning and sequencing of the *gerK* spore germination gene of *Bacillus subtilis* 168 453

I. Kitabayashi, K. Matsumoto, and H. Hirokawa: The primer protein of bacteriophage M2 inhibits elongation activity of its DNA polymerase 467

T. Uchiumi, S. Higashi, and M. Abe: Integration of a plasmid carrying the *attP* site into the chromosome of *Rhizobium* insensitive to the lysogenic phage infection 479

T. Nishi and T. Yagi: Participation of cAMP in the induction of the synthesis of glycerol for the osmoregulatory response in the salt-tolerant yeast *Zygosaccharomyces rouxii* 493

Short Communication

M. Takeuchi and A. Yokota: Evaluation of cell-wall sugar composition as a taxonomic marker of some coryneform bacteria 505

T. Oh-hama, N. J. Stolowich, and A. I. Scott: 5-Aminolevulinic acid biosynthesis in *Propionibacterium shermanii* and *Halobacterium salinarium*: Distribution of the two pathways of 5-aminolevulinic acid biosynthesis in prokaryotes 513

Number 6, December 1993

F. Spaaij, G. Weber, T. Aoki, and J. P. van der Walt: *Myxozyma nipponensis* sp. nov. (Candidaceae), a new species recovered from frass of *Ips typographus* f. *japonicus* niijima 521

P. K. Rai, N. Mallick, and L. C. Rai: Physiological and biochemical studies on an acid-tolerant *Chlorella vulgaris* under copper stress 529

F. B. Elegado and Y. Fujio: Selection of raw-starch digestive glucoamylase-producing *Rhizopus* strain 541

H. Rau, T. Sakane, A. Yokota, and H. Mayer: Isolation and chemical characterization of lipopolysaccharides from four *Aquaspirillum* species (*A. itersonii* subsp. *nipponicum* IFO 13615, *A. polymorphum* IFO 13961, *A. aquaticum* IFO 14918, *A. metamorphum* IFO 13960 and *A. metamorphum* mutant strain 12-3) 547

J. B. Singh, S. M. Prasad, L. C. Rai, and H. D. Kumar: Response of the cyanobacterium *Nostoc muscorum* to chromium and lead: The effect on phosphorus metabolism 559

H. Miyashita, H. Ikemoto, N. Kurano, S. Miyachi, and M. Chihara: *Prasinococcus capsulatus* gen. et sp. nov., a new marine coccoid prasinophyte 571

K. Asai, F. Kawamura, A. Hirata, H. Yoshikawa, and H. Takahashi: SecA is required for three distinct stages of sporulation in *Bacillus subtilis* 583

K. Nunomura, E. Ohtsubo, and Y. Maeda: Effect of various anions on the stepwise melting of plasmid DNA 597
